| | ARP: 50° 02' 19" N, 13° 41' 49" E ELEV: 1558 ft / 475 m | |

PPR required. Beware of high-voltage power lines, height 24 m AAL, direction NNW/SSE, 500 m W of the field. Hangar height 5 m AAL, 140 m before the threshold of RWY 27, north of the extended axis of RWY 09/27. In strong winds, beware of turbulence behind obstacles. North circuits only. When entering ATZ LKRK, report to RAKOVNIK RADIO 123.510. Occasional model aircraft traffic. After take-off from RWY 27, it is recommended to turn right / approach RWY 09 parallel to the high-voltage power line on the side of the airfield. Fly over surrounding villages at a minimum altitude of 1000 ft / 300 m AGL. Snow removal is not provided.
